

## **Convergence: OnRelay Short listed for the World Communications Awards 2007**

London, UK - 17 September 2007

OnRelay, lauded as a company that is 'defining the next era of [mobile] PBX', has been short listed in the Convergence category, part of the World Communications Awards 2007.

Other companies short listed in this category include BT and Orange.

OnRelay CEO Ivar Plahte was short listed earlier this year as the WCA 2007 Most Influential Person in Telecoms for pioneering the mobile PBX (M-PBX).

Plahte says: "We are delighted to have been nominated for this award and are in good company amongst those short listed. OnRelay is driving mobile PBX and is here to help organisations manage the transition to a universal device or 'one phone' model."

Winners will be announced on the 28th November 2007.
